## Application for Appointment to the Citizen's Boards and Commissions

The City Commission of this City encourages participation by its citizenry in the activities of the City government. In many instances, the most constructive and rewarding service can be achieved through active participation as a member of a committee advisory to the City Manager and the City Commission. A listing of the various citizens' committees is presented on the other side of this sheet.

All interested citizens are asked to complete the following questionnaire so that the City Commission may be aware of the Committee on which you desire to serve and be made aware of any particular educational or addition background experience directly related to a specific citizen's committee.

Thank you for your interest and concern in the City government. This expression of interest will be maintained in our files for one year, or until a selection is made for a particular citizen's committee.
